Blanket interest relief to wipe out half of SBI net worth: govt to SC

FE BUREAU
New Delhi, December 8

THE GOVERNMENT ON Tuesday argued against any further waiver of interest on all the loans and advances given to borrowers during the six-month moratorium period that ended on August 31, saying, "this will mean forgoing an estimated over ₹6 lakh crore".

According to the government's latest affidavit on the matter in the Supreme Court, in the case of State Bank of India (SBI) alone, waiver of six

were to bear this burden, it would necessarily wipe out a substantial and a major part of their net worth, rendering most of the banks unviable and raising a very serious question mark over their very survival. This was one of the main reasons why a waiver of interest was not even contemplated and only payment of instalments was deferred," Solicitor General Tushar Mehta told the court.

"Continued payment of interest (including interest on interest) to depositors is not only one of the most essential bank-

months' interest would completely wipe out over half of the bank's net worth which has accumulated over nearly 65 years of its existence.

During the hearing, the apex court bench led by Justice Ashok Bhushan, however, observed that it would not pass any order that will risk the economy going "haywire." The court had earlier asked the government, Reserve Bank of India (RBI) and banks if power and real estate sectors could be given succour on the debt front. "If the interest is waived on all the loans and advances for the moratorium period, about all classes and categories of borrowers, the amount to be foregone would be more than ₹6 lakh crore...if the banks

It submitted that banks can't bear the burden resulting from waiver of compound interest without passing this burden on to the depositors or affecting their net worth adversely, which would not be in the larger national economic interest.

He said that a possible crippling of the banking sector was one of the main reasons for "not even contemplating waiver interest" and restricting relief to "deferment of payment of instalments".

Travel curbs effective in nations with low number of cases: Study

TRAVEL RESTRICTIONS ARE effective in countries with low numbers of Covid-19 cases, or that have strong travel links with nations experiencing high rates of the viral infection, according to a study published in *The Lancet Public Health* journal.

The study also suggests that travel restrictions may have been most effective during the early stages of the pandemic, and the measures are unlikely to be effective when the virus is already spreading rapidly within a country.

"We recognise that these measures carry a high economic and social cost, so it is important that governments use travel restrictions in a targeted way," said Professor Mark Jit from the London School of Hygiene and Tropical Medicine, who led the study. "Before introducing restrictions, they should take into account local infection figures, epidemic growth rates, and the volume of travellers arriving from countries heavily affected by the virus," Jit explained.
